

KEM Pumps Ltd

ENVIRONMENTAL POLICY STATEMENT

KEM Pumps Ltd provides environmental and remedial solutions to enable our clients to comply with the Approved Code of Practice L8 for the control of Legionella bacteria in water systems and enhance the efficiency of their water systems.

I am responsible for all matters relating to KEM Pumps Ltd's environmental management. All Directors of KEM Pumps Ltd strongly believe that we have an obligation to preserve the planet for future generations

We are fully committed to the objective of maintaining, reviewing and continually improving our environmental performance and preventing pollution and unnecessary use of resources and energy.

I have overall responsibility for compliance with our environmental policy and will ensure that we:

- We are committed to inform our employees on all environmental aspects and issues as they affect our undertaking, and employ best standard operating practices to control the pollution of the working and general environment from dust, noise and hazardous substances.
- Address all environmental risks of the work we carry out and incorporate environmental risk management in all our project planning for the whole life cycle
- Monitor and review environmental procedures and audit compliance to ensure standards are being maintained. All areas of potential improvements are clearly highlighted.
- We conduct all works in such a way that adverse effects to the environment will be avoided or minimised so far, as is reasonably practicable.
- All subcontractors and suppliers are required to adopt environmental policies and management systems.
- An annual environmental objectives and targets are set and we monitor performance
- Adopt reasonable controls for preventing air, ground, water or noise pollution and keeping sites clean and tidy in order to reduce the environmental impacts of our work and their effects on our clients' premises and their local communities by
- We communicate openly with our customers, suppliers and partners.
- We are committed to minimising waste and recycling of materials, complying with applicable legislation.
- All applicable environmental legislation, regulations, codes of practice and other requirements relevant to our operations are adhered at all times.
